

An aerial photograph of a city skyline, likely New York City, taken from a high vantage point over the water. The sky is filled with large, dramatic clouds in shades of orange, yellow, and red, suggesting a sunset or sunrise. The city's skyscrapers are silhouetted against the bright sky. Several large, translucent pink bubbles are floating in the air, adding a whimsical touch to the scene. The water in the foreground is calm, reflecting the colors of the sky.

API Management MCP Registry Event June 2026

Upcoming Community Events

Ask the Expert: AI Q&A Session

- **Date:** June 18, 2026
- **Time:** 1:00 PM EDT

Join us for Boomi Office Hours, a live Q&A with our experts offering real-time guidance and support.

Meet Data Connector Agent: Build Any Custom Connector in Minutes

- **Date:** July 8, 2026
- **Time:** 10:00 AM EDT

Discover how Boomi's Data Connector Agent lets you build custom connectors to any HTTP API in minutes using YAML-based templates and a low-code editor — no pre-built connector required.

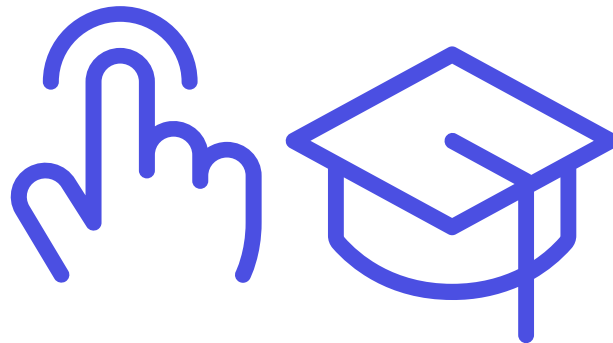

Higher Education User Group Virtual Meetup

- **Date:** July 15, 2026
- **Time:** 2:00 PM EDT

We invite you to our monthly Higher Education User Group meeting, a dedicated platform for professionals in the education sector to connect, share, and learn.

API Control Plane MCP Registry

03

Q/A

Features

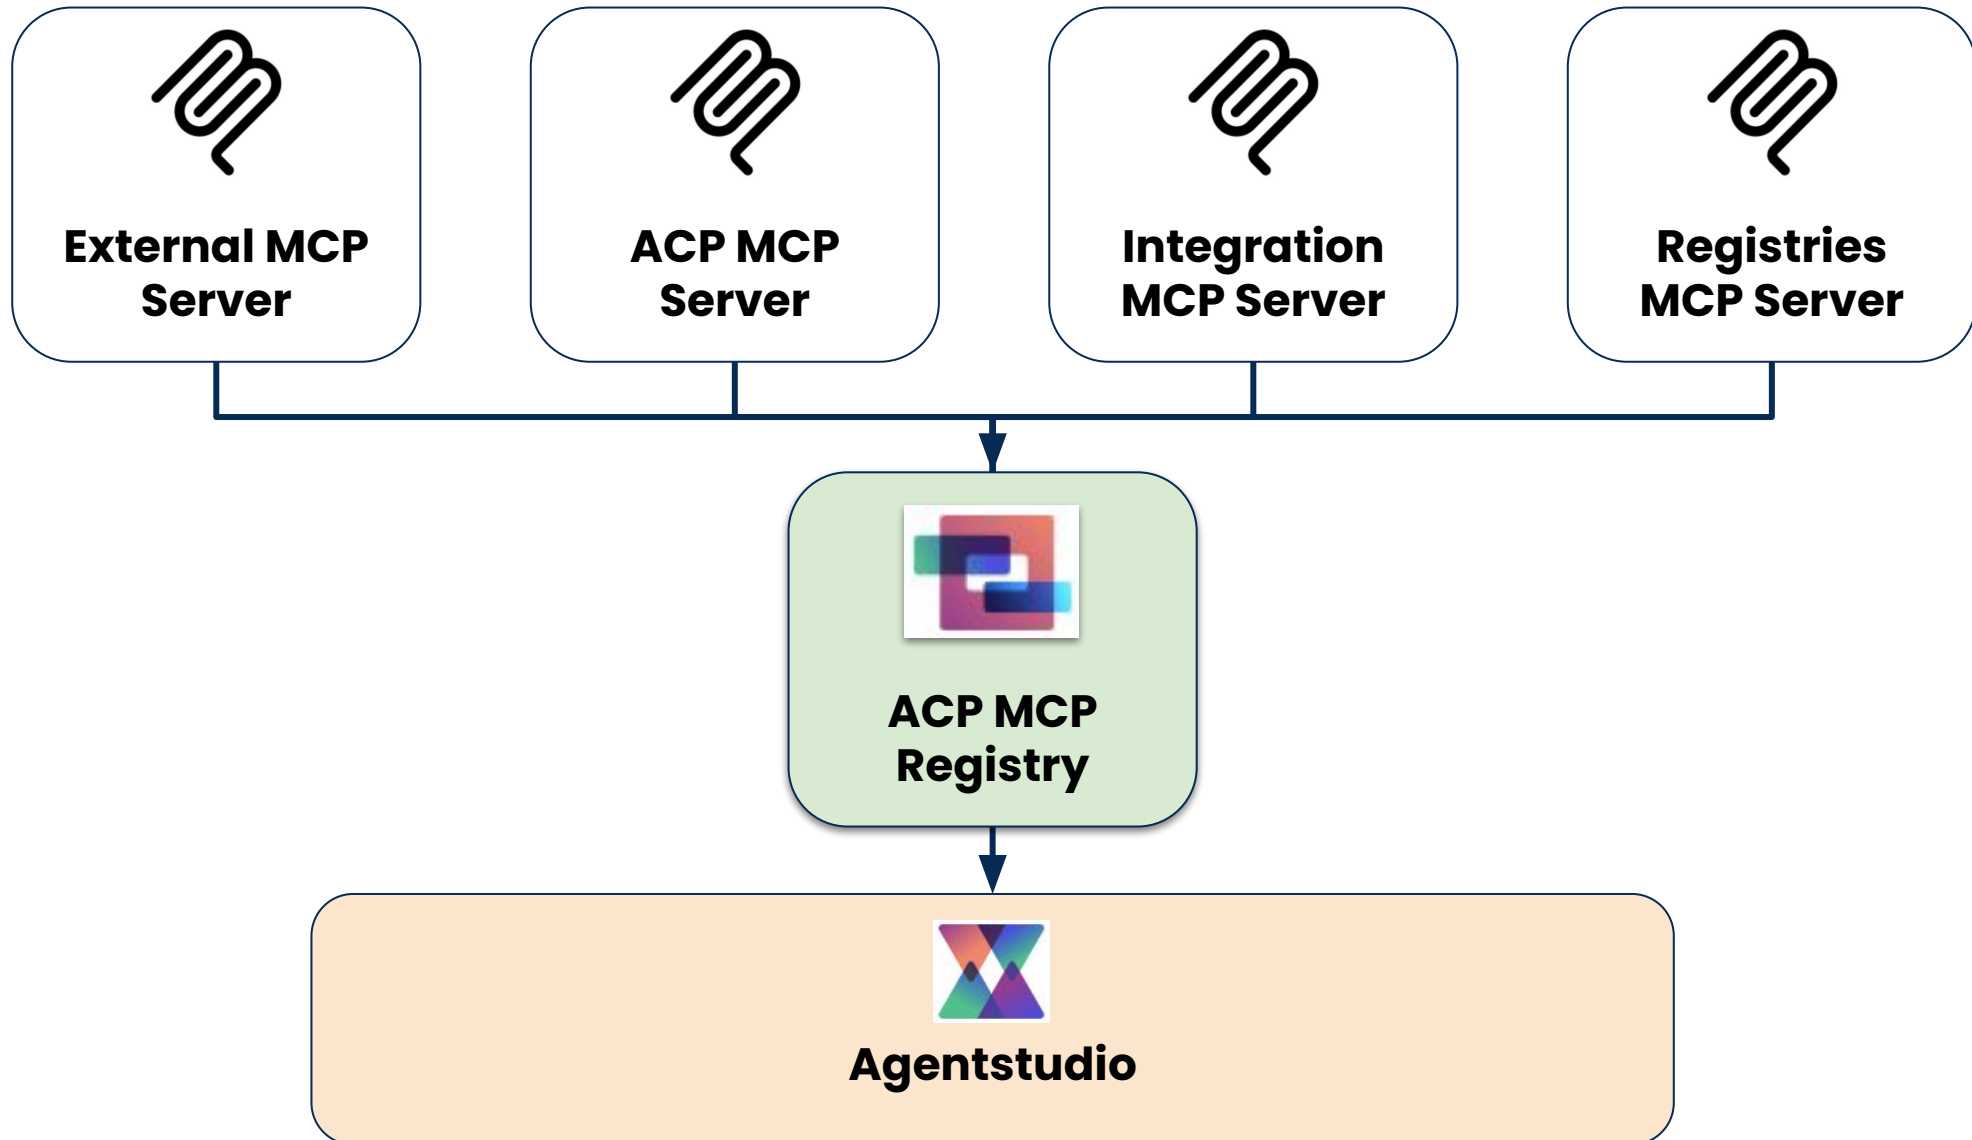

- ACP MCP Capabilities
- ACP MCP Registry Intro
- Official MCP Registry vs Boomi MCP Registry
- MCP Registry in ACP's DevPortal
- Connecting to MCP Servers from Applications
- Connecting to MCP Servers from Agentstudio

Business Value & Outcomes

- ACP: MCP Registry
 - Single source for all your MCP Servers, Boomi or external
 - Full visibility and access from Agentstudio
- Agentstudio: ACP's MCP Registry visibility
 - Quick and convenient integration between Agentstudio and API Control Plane
 - Developers can only use one Registry Catalog for all their needs

MCP Servers Everywhere

Q/A

1. What is an MCP Server? Why do I want to use it? Will it be required for all BOOMI hosted integrations? How does it work? How do I use it?
2. What are the Boomi service requirements to enable MCP through APIM? Any additional costs?
3. How Boomi Integration MCP can be utilized to enable seamless integration with other MCP frameworks across the enterprise?
4. Is API Management needed for AI?
5. Why should I use Boomi for this?
6. What's new and how do i get it implemented quickly?
7. How do you secure the models like Opal or OpenAI?
8. How we can expose Boomi API Endpoints easily via MCP?

Q/A

9. Can the registration and access of registered MCP's, be segregated by department (RBAC)?
10. How the MCP Servers are maintained in Boomi, how can we connect them using AI agent.
11. How can you validate & debug your MCP Server from the API Control Plane before listing them in the catalog/registry?
12. What are the risks to exposing APIs as MCP Servers?
13. how do you test MCP Server performance?
14. How does this integrate with Agentstudio or third party AI platforms?
15. How the MCP Registry will work with Boomi integration Service?
16. What customer challenges or gaps led Boomi to create the MCP Registry, and how does it differ from traditional API catalogs or service registries in addressing those challenges?

Recap

- ACP MCP Registry:
 - Configuration
 - Access from DevPortal and Applications
 - Access from Agentstudio
- More Features coming in **July**
