

An aerial view of a city skyline at sunset, with a large body of water in the foreground. The sky is filled with dramatic, orange and yellow clouds. Several large, translucent pink bubbles are scattered across the scene, floating in the air. The city buildings are silhouetted against the bright sun, which is low on the horizon.

Upcoming Community Events

Higher Education User Group Virtual Meetup

- **Date:** June 10, 2026
- **Time:** 5:00 PM EDT

We invite you to our monthly Higher Education User Group meeting, a dedicated platform for professionals in the education sector to connect, share, and learn.

This month will be a Boomi World Higher Education recap!

API Management: New MCP Registry

- **Date:** June 17, 2026
- **Time:** 1:00 PM EDT

Explore the new MCP Registry and how it enables centralized governance, aggregation of external MCP Servers into a single catalog, zero-configuration publishing, and seamless integration with Agent Designer and third-party agent frameworks.

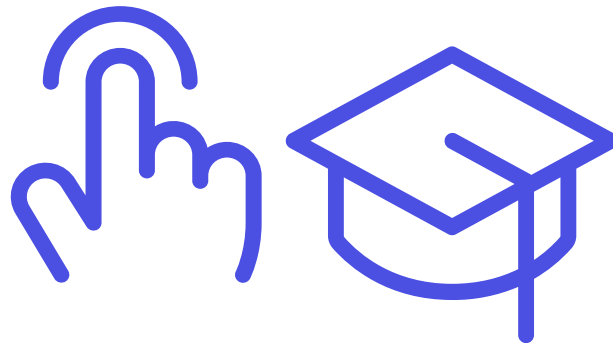

Ask the Expert: AI Q&A Session

- **Date:** June 18, 2026
- **Time:** 1:00 PM EDT

Join us for Boomi Office Hours, a live Q&A with our experts offering real-time guidance and support.

Q/A

Overview: Boomi API Management - Solution Design

Primary Solutions

Boomi APIM Professional Plus

Cloud API Management

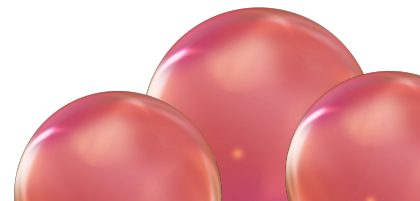

- API Registration & Policy Configuration
- Boomi SaaS Cloud Hosted Design Time
- Hybrid API **Traffic Management** Support
 - All API Transactions on Boomi SaaS Cloud
 - All API Transactions On-Premises hosted by Customers
 - Mix of API Transactions on Boomi SaaS Cloud & On-Premises

API Control Plane

- Developer Portal and API Catalog
- Governance and Security Compliance
- API Federation
- API Products
- MCP Bridge
- MCP Registry

API Gateway

- Locally install a Gateway Runtime
- Connects directly to a Platform Environment
- Offers Policies and a Developer Portal

Masthead 2.0 Service Icons

Integration & Automation

API Management

- API Management
- APIM/Gateway

ACP

CAM

AI Management

Boomi AI

Agent

Agentstudio
Agent Garden

Features

- ACP: MCP Registry
- ACP: Add Environment/Gateway via SDK
- APIM: API Proxy Component OAuth 2.0 authorization
- CAM: JSON, XML and Regex Threat Protection
- Agentstudio: ACP's MCP Registry visibility

Business Value & Outcomes

- ACP: MCP Registry
 - Single source for all your MCP Servers, Boomi or external
 - Full visibility and access from Agentstudio
- ACP: Add Environment/Gateway via SDK
 - Ability to create other Gateway connections and configurations
 - Flexibility to allow users create the desired Gateway Agent
- APIM: API Proxy Component OAuth 2.0 authorization
 - New method for connecting to external APIs requiring this type of authentication
 - provides more alternatives when creating API Proxy Components
- CAM: JSON, XML and Regex Threat Protection
 - API Developer improves the security of their APIs
 - Allows the use of a powerful Policy to protect your APIs
- Agentstudio: ACP's MCP Registry visibility
 - Quick and convenient integration between Agentstudio and API Control Plane
 - **Developers can only use one Registry Catalog for all their needs**

Q/A

1. What is your plan on removing Boomi APIM Gateway layer as all of its features are now aligned or advanced with Cloud APIM layer as I understand. Wanted to get myself up to date with recent advancements so we can pitch those for our clients.
2. How does the Boomi Companion interface with APIM and API Gateway specifically?
3. How does Boomi APIM support dynamic authorization (e.g. depending on authenticating client) to backend applications through it's published APIs?
4. How can I best obtain metrics from the API Management Gateway outside of the Dashboard to help drive policies and plans?
5. What typically trips developers up when building new API services?
6. How will Cloud API Management be enabled for AI Agent communications?
7. In what ways are non-production API testing done within a process?
8. How to connect Geospatial Applications to enterprise asset management systems

Recap

- Upcoming APIM Features for:
 - API Gateway
 - Cloud API Management
 - API Control Plane
- More Features coming in **July**

Community Online Learning & Certification - <https://train.boomi.com>

- New to Boomi? Start with the **API Management Path**
- Professional API Design ★
- Professional API Management ★
- Then you can take:
 - API Control Plane
 - Cloud API Management
 - Any of our Advanced Short Courses
